Reach the World's Media

Reach the world's media by selecting from MediaSource's range of News Distribution services. Whether your message is brand related, corporate, financial, a planned campaign or responding to a crisis, our solutions are cost effective and meet the needs of today's busy communications professional.

Automated News Distribution

Our Automated Distribution service is available to all our Mediadisk clients - the perfect solution for those working within budget and time constraints. With the option of choosing from email or fax, you have complete control of how and when your news release is sent.

Low-cost, instant fax and email

Once connected to our Automated service you will have access to a large number of high speed fax machines and specialist email servers. Whether you are sending a massive press release to a huge list or a single page document, this service makes it easy and extremely cost-effective.

Determine when to Send

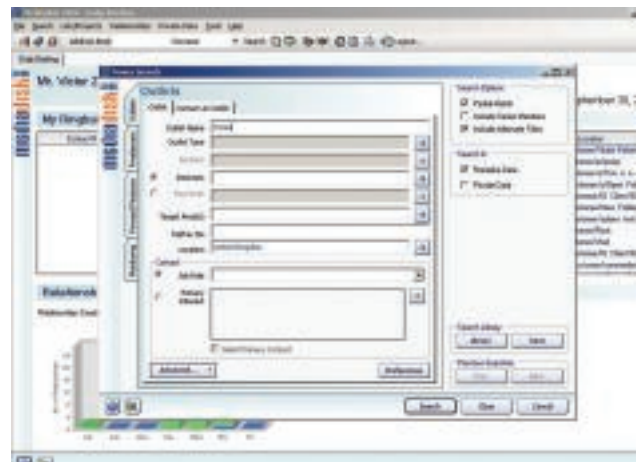

Our Embargo facility gives you 24/7 distribution capabilities at the touch of a button, and you control whether your announcement goes immediately or at a later date.

Keep track of Deliveries

Our reporting service allows you to track your job status, monitor delivery successes and review your previous jobs history. This allows you to share information with your colleagues and gives you the option to resend your message with one click.

Enhanced email Messages

Branded, colour emails in a dynamic HTML format ensure a good first impression - emails display your specified sender's email address.
